New Beginning in Achhra, Murshidabad!

Our 7th play school, **"Hatekhari,"** has officially begun its journey with 10 enthusiastic young learners. This marks a meaningful step toward nurturing bright futures through joyful learning, play, and creativity.

At Hatekhari, we aim to provide a safe and inspiring environment where children can build a strong foundation for life with confidence and curiosity. This initiative is more than a school—it's our commitment to shaping the next generation.

Education Support Initiative

Kishalay Foundation has taken a meaningful step towards empowering young minds by sponsoring the education of two talented students from underprivileged families—one from Chotomollakhali and one from Dhamakhali.

Despite financial challenges, both students have demonstrated strong academic potential and dedication. This initiative aims to ensure that their dreams are not limited by circumstances.

EduKids Centre Monitoring Update

As part of Kishalay Foundation's ongoing quality assurance process, regular visits are conducted across EduKids Centres to assess key parameters including student learning quality, discipline, and health & hygiene practices. These monitoring visits ensure that centres maintain a safe, structured, and child-friendly environment, while upholding the organisation's standards for holistic early childhood development.

Get Involved!

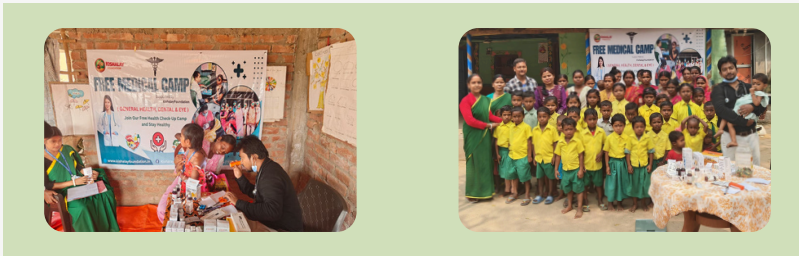

Regular visits are conducted to assess student learning quality, discipline, and health & hygiene across EduKids Centres. The Education Quality Lead, Health Quality Lead, and HR team actively participate in this process, also evaluating teachers' soft skills to ensure a high-quality, safe, and child-friendly learning environment.

Free Health Check-Up Camp | Murshidabad

On 7th March, Kishalay Foundation successfully conducted a Free Health Check-Up Camp in Murshidabad district, covering Dorer Danga, Rajkhanda, and Ghorsha Danga. The initiative focused on general health check-ups and basic medical consultations to promote early diagnosis and health awareness.

A total of 74 students benefited from the camp (Rajkhanda & Ghorsha Danga: 42 | Dorer Danga: 32).

Strengthening Maternal Health: Kishalay Foundation’s Impactful Camps in Sundarbans

Kishalay Foundation successfully organized two Maternal Health Protection Camps at Satjelia, Gosaba Block, in collaboration with Rotary Club and the Indian Medical Team Association.

A total of 164 adults and 5 children benefited from medical consultations and essential healthcare services.

With the belief that “a healthy mother builds a healthy society,” this initiative marks a step toward creating lasting community impact.

We sincerely thank our partners, volunteers, and all participants for making this effort meaningful. Together, we continue working toward a healthier and more compassionate society.

Kishalay Foundation’s 12th Annual Meet

Kishalay Foundation successfully held its 12th Annual Meet on 1st March at Godkhali, with 145+ participants from 41 education centres.

The programme included reflections on achievements, future planning, inspiring sessions, and teacher sharing.

Outstanding contributors were recognised through Performance Awards.

The event concluded with lunch and networking, strengthening team spirit and commitment to quality education.

MONTHLY FIELD VISIT REPORT | YOUNG INDIAN TEAM

This month, the Young Indian team conducted a structured field visit to the Rainwater Harvesting Unit, Sanitary Pad Unit, and Mangrove Project. The primary objective of the visit was to assess ongoing sustainability initiatives, evaluate women’s empowerment programs, and review the progress of community-based livelihood development efforts.
